FULLY REFINED RAPESEED OIL

Issue date: 29-Jan-15 (valid for maximum 2 years after issue date)

This information data sheet replaces all the previous ones, for this product.

This document is prepared to inform the customer on the product specification. Only signed by the customer this document is considered to be a specification sheet. Else the information in this technical data sheet is considered as informative, and may be subject to change. Please contact Cargill (CROE-TS_support@cargill.com) to receive the most recent version of the document.

Product description:

Fully Refined Rapeseed Oil is a vegetable oil of non-lauric and non-GM origin. The product is non-hydrogenated. The product may contain citric acid (E330) as sequestrant.

Compliance with Food legislation:

This product complies with all current and relevant EU legislation. Cargill's "Standards on Unwanted Components" is available upon request and contains legal limits for contaminants, quality and food safety parameters.

6. RELATED DOCUMENTS

Guidance Safe Use (GSU):

This document is prepared as a communication tool to inform downstream users regarding the status of this substance under REACH and CLP, some of its intrinsic properties, as well as to communicate the guidance on safe use. An extended Safety Data Sheet (SDS) is not required for this substance according to Article 31 of Regulation (EC) 1907/2006 (REACH). Consequently, the format and content of this document is outside the scope of SDS as specified in Commission Regulation (EU) 453/2010, amending Regulation (EC) 1907/2006.

Please ask for the applicable document using reference: GSU_01

General Product Information (GPI):

This document is prepared as a communication tool to inform downstream users regarding the status of this substance under the relevant legislation (on contaminants, microbiological standards, allergens, GM). It also gives information on the certifications of the different Cargill locations.

Please ask for the applicable document using reference: GPI_001
