Item number:	416020
Product name:	Moulinel mosselen in azijn 2000 g
Scientific name:	Mytilus edulis L.
Origin product:	FAO 027
Produced in factory:	NL-6009-EG

Product:

Product description:	cooked mussel meat and in vinegar melange
Process:	mussels, washed and cleaned, stripped of bysus, cooked with high pressure, separated from the shells, washed, marinated. Put in glass jar with vinegar melange, closed and pasteurised Ingredients: cooked mussel meat, water, natural vinegar, onions, salt, acidity regulators (E270, E330), natural aroma's, sugar
Content:	3500 ml, net weight 3200 g, drained weight 2000 g
Packaging:	3500 ml PE (HD) packaging with PE (HD) lid pallet composition: 120 units per euro pallet
Coding:	Production code and shelf life. This code guarantees a full and complete traceability of the individual ingredients till the fishing area, according to regulation (EC) No 178/2002. EAN code: 8710593300167
Shelf life:	marked on the label, 4 months after delivery
Storage conditions:	store cold, between 2°C and 7°C
Availability:	during the whole year

Physical characteristics:

Shell fragments:	max. 2% of the number of mussels
Bysus:	max. 1,25 gram per 250 g of mussel meat
Foreign bodies:	absent
Structure:	firm
Metal detection:	detection till 2 mm Fe, 3 mm non-Fe and 4,5 mm stainless steel

Organoleptic characteristics:

Taste:	fresh sour mussel taste, not deviant
Perfume:	fresh vinegar smell, not deviant
Sand:	sensoric practically free of sand
Colour:	white-light orange, not deviant
Texture:	tender, but substantial, not crumbly

Standards microbiological at delivery:

Total aerobic plate count:	< 10.000 cfu/g
Enterobacteriaceae:	< 500 cfu/g
Staphylococcus aureus:	<100 cfu/g
Yeast and mould	< 500 cfu/g
Salmonella / 25 g:	absent
Listeria monocytogenes / 25 g:	absent

Chemical: pH ≤4,4

Heavy metals:

Cadmium:	max. 1,0 ppm
Lead:	max. 1,5 ppm
Mercury:	max. 0,5 ppm

Average nutritional value per 100 g: (data calculated from data of 'Dutch Food Composition Table http://nevo-online.rivm.nl/ and sugar calculated)

Energy:	125 Kcal
Protein::	23,2 g
Carbohydrates:	0,03 g
of which sugars:	0,03 g
Fat:	3,6 g
of which saturated:	1,1 g
Fibre:	0 g
Sodium:	0,37 g

Label:

General:

Roem van Yerseke B.V. is a shellfish and crustaceans processing plant with a government-approved HACCP system. We are BRC and MSC certified, which means that we go beyond the requirements of the government and other applicable regulations on food safety, including regulation EC-178/2002, EC-2073/2005 and EC-854/2004. All eventual food additives apply with regulation EC-1333/2008. From every produced lot we systematically take samples to have them analysed by an independent certified and recognised laboratory.

Toxic data:

The product meets the standards for algae toxins (ASP, PSP and DSP) as stated in the EC Regulation No 853/2004

Data regarding chemical pollution:

The product meets the standards laid down in EC Regulation No 1881/2006.

Information regarding packaging materials used:

All packaging materials used are suitable for packaging of foodstuff in conformity with EC Regulation No 1935/2004

Animal medication:

The product is free of animal medication.

Genetically modified ingredients:

The product does not contain genetically modified ingredients or derivatives thereof. We are fully in accordance with EC Regulation No 1830/2003 and 1829/2003.

Use and preparation:

This product, at preference, can be consumed unprepared. The product has a shelf life of 4 months, if stored unopened. After opening the product can be kept limited. Temperature misuse is possible. A particular consumers group cannot be given, this means the risk groups (diseased, elderly and children) can consume this product. Also because this product can be consumed without further preparation, one needs to concentrate on the microbiological state of the product.
